Course Title: Intermediate Macroeconomics II

Course Number and Section: ECONOMIC 2221B 551

Instructor Name(s): Sunghoon Cho
Instructor Email(s): scho83@uwo.ca

Disclaimer: Information in the brief course outline is subject to change. The syllabus posted on OWL is the official and authoritative source of information for the course.

Course Description:
This is the second course in the intermediate macroeconomics theory sequence. The main goal of the course is to use the model constructed in the first course to analyze the issues of open economy, business cycles, monetary and fiscal policy, and growth.

Learning Outcomes:

• be able to distinguish different models of macroeconomics.
• be able to understand, explain, and analyze the current issues using the models of macroeconomics.
• be able to understand, explain, and analyze how an economy grows in the long run.
• be able to understand, explain, and analyze how government uses fiscal and monetary policies to achieve its short-term and long-term macroeconomic goals.
• gain valuable analytical and mathematical skills by using economic models.
