SMALL CLASS SIZES

THE HURON EXPERIENCE IS TRULY ONE-OF-A-KIND. WHILE MOST UNIVERSITIES TAKE IN THOUSANDS OF STUDENTS EVERY YEAR, HURON SELECTIVELY LIMITS OUR ANNUAL INCOMING COHORT TO APPROXIMATELY 500 STUDENTS. THAT MEANS:

- The average number of students in your classes will be 30 rather than 300
- Our student to faculty ratio is only 20:1 – meaning you'll learn from PhD and MBA credentialed professors who are experts in their field and who will know your name
- At Huron, you'll never have to sit in large lecture halls with 800 students and memorize textbooks. In our intimate discussion-based classes, you'll get to interact and debate with your peers, share your ideas and passions while learning experientially through the case study method, real-world capstone projects or one of our many global classroom experiences to the United Kingdom, the United Arab Emirates, Rwanda and more!

CULTURE OF CARE

WE BELIEVE IN PROVIDING A TRANSFORMATIVE EDUCATIONAL EXPERIENCE - THAT MEANS PUTTING OUR STUDENTS FIRST. AT HURON, YOU’LL FIND:

- An Admissions team that works side-by-side with you and your family as you apply for programs and scholarships
- Individualized one-on-one support from academic advisors, wellness professionals and career development teams
- Outstanding faculty who are accomplished researchers and teachers and are always available to meet with you individually outside of class.

Our culture of care is a key part of Huron student life. Learn more on Page 34.
PAID INTERNSHIPS

AT HURON, EVERY SINGLE STUDENT IS GUARANTEED A PAID INTERNSHIP.

At our Career Development Centre, you'll work one-on-one with an advisor to find the right fit for your paid internship. They will help connect you with a position that sparks your curiosity and nurtures your interests, while providing you with experiences to add to your resume.

STUDENT VIEW:

PSYCHOLOGY AT HURON

Q: Why did you choose Psychology at Huron?
A: “I’ve always wanted to do psychology and I found the Huron psychology program to be really different and unique compared to all the other universities I was looking at. It’s really research-based offering learning opportunities to students who want them right in the first year of the degree.”

Q: What is some of the research you’ve been able to do?
A: “I started by writing research papers in my first year. It was basically a learning experience for the future which I really appreciated. When I went into my second year and my third year, I had the choice of actually pursuing research subjects and research projects that interested me.”

Q: What do you like most about being a student at Huron?
A: “I definitely love the culture and I don’t think I would have found that anywhere else. When I met the recruiters for the first time, they told me professors would remember you by name. Actually experiencing that in every single course I’ve been in is really, really important and rewarding.”

**Q:** Why choose Huron?

**A:** “The whole experience has exceeded all my expectations by 1,000%. It’s a community and a family. I went through hard times last year and it was so easy to talk to President Barry Craig. You don’t get that anywhere else.”

Alumni Mentorship connects you with industry-leading professionals who were at Huron just a few years before you. These impressive alumni can provide insight and advice as you begin to look toward postgraduate opportunities.

Need a mentor? The Career Development Team connects students to peer and alumni mentors based on your interests and career aspirations.

THE SCOTIABANK CAREER ACCELERATOR PROGRAM (CAP)

INVEST IN YOURSELF. COMMAND YOUR CAREER.

Scotiabank CAP is an elite program that will build your career confidence and help you distinguish yourself as a workforce-savvy emerging leader. By combining the best of your Huron degree with tangible skills and experiences, you can position yourself as the kind of sought-after employee companies are looking for.

Scotiabank CAP participants take part in training modules, workshops and hands-on experiences that will complement their degree by preparing them with workplace readiness skills. Students who successfully complete this program will earn the Scotiabank CAP designation, a signal to top employers that their latest applicant is a future leader.

TO RECEIVE THE SCOTIABANK CAP DESIGNATION, STUDENTS MUST:

- Create a personal Career Development Plan
- Participate in a paid internship
- Take part in a meaningful volunteer opportunity
- Engage in a formal mentorship with one of our alumni
- Participate in four Career Development Workshops
- Complete two self-directed Information & Communications Technology modules

Scotiabank CAP students also have the option of completing specializations in Marketing & Communications, Innovation & Entrepreneurialism, Professional Business Essentials, Wellness, and Intercultural Leadership.
Q: What was your experience like in Scotiabank CAP? What have you learned?
A: A great thing about the Scotiabank CAP program is it taught me to ask for help and support. My knowledge of working life was limited, so all the support I got with working on my resume, writing a cover letter or creating a career map helped me determine my path and secure a position after graduation.

Q: How will Scotiabank CAP help with your career aspirations?
A: Exposure and practice! The program encouraged me to step out of my comfort zone and apply for opportunities I wouldn’t normally pursue. I also expanded my network, and got to showcase the skills I’ve learned, giving me the confidence to make my next move.

Q: What is a unique feature of the Scotiabank CAP program?
A: It allowed me to surround myself with an ambitious, diverse and like-minded group of individuals at Huron and in the workforce, where we learn from each other about professional and personal development.

Q: What are your plans after graduation?
A: I will be working at KPMG! My degree specialization is policy and ethics, and they valued my achievements and the soft skills I can bring to the role. The reason they chose me was that I was able to communicate in a way that was more seasoned, or professional, making me more attractive than the other candidates. The Scotiabank CAP program really supported me throughout the application and interview processes to make sure I was prepared and equipped for applying and eventually taking on this new role.

I feel a deep sense of gratitude to the Scotiabank CAP program for the opportunities I received, to getting me where I am today and where I will be tomorrow!

Q: For someone considering the CAP program, what would you say to them?
A: Scotiabank CAP helps provide you with the focus and necessary skills that make you an asset as an employee and as a team member. If you’re unsure about the Scotiabank CAP program or what life after university looks like, take a chance and apply for the program. Huron is a great place that offers so many opportunities for students, and this is one of them that you should not pass up.
At Huron, every student is guaranteed a paid internship. This means you’ll have the chance to put your skills to the test and earn a salary, all while earning your degree.

**THROUGH HURON’S CAREER DEVELOPMENT CENTRE, STUDENTS GET ACCESS TO:**

- Resume writing, interviewing and personal branding workshops
- Career Mapping, where you can set goals and career plans

Over the years, Huron students have continually supported our construction projects. Through their dedication and participation, together we continue to help more families build and improve places to call home.”

The Frank Holmes Centre for Leadership, Ethics & Entrepreneurship is Huron’s newest, state-of-the-art facility. With over 40,000 square feet of instructional and community-gathering space, the Frank Holmes Centre is specifically designed to support our mission by fostering a close-knit community and cultivating passionate and civic-minded leaders.

Opened in Fall 2021, the building is the central hub of student life on campus and Huron’s flagship presence on Western Road, one of London’s most prominent streets.

From interactive classrooms to a formal, fully-equipped auditorium, the building was designed with students in mind.

“The Huron model of education is needed more than ever before. We, as a society, are at a turning point where we can choose to lead the easy way, or choose to take the longer, harder road of leading with integrity, conviction and fortitude. Huron is teaching the next generation that the more difficult route is the better one not only for the individual, but society as a whole.”

At Huron, you never have to worry about the logistics of moving to a new country on your own - we do it together.

WHEN YOU ARRIVE:
When you arrive in Canada, you will be greeted by your International Student Engagement team who pick you up at the airport and bring you back to your new home at Huron.

Once you are settled in, we will take you shopping for your dorm room, help you set up a bank account, and get a SIM card and all the necessary documents to help you begin working in Canada.

After the official stuff is done, you'll meet friends from around the world, visit Ontario’s best destinations and take part in activities that help you get to know your peers, while prioritizing your safety and well-being.

Once you’re on campus International Welcome Week sets you up so that once classes start, you can focus on learning with the friends you’ve just made.

Relax, meet and play in our newly renovated Apps International House where you’ll have access to a full kitchen, lounge area and games room. Don’t miss the many events hosted in this house, which was designed specifically to foster our international community.

Apps International House is also where you’ll visit your Student Engagement Officers. Whether in office or via personal cellphone, your Student Engagement Officers will be there 24/7 to answer any questions you have about how to make your Huron experience 100 per cent your own.
“The transition to Huron was the very first time I was away from home and without my family. The Student Engagement Team really helped me adapt to my new home for the next four years. I always felt comfortable talking about any issues I was facing, which made me feel more at ease and not alone. Additionally, the events planned for the international students helped me build my friendship circle. The staff and upper years are really helpful, and they are always there for you. You never have to worry about getting the help you really need.”

PARENT TESTIMONIALS: SUPPORTING STUDENTS & FAMILIES

As parents, we know you have many questions about your child’s education and how they are going to be supported at Huron. Rest assured, from move-in day through to convocation, our team is there to support your child's education, so you can look forward to welcoming home a successful and well-rounded leader.

HEAR MORE FROM OTHER HURON PARENTS:

“We chose Huron because of the excellent service provided by the admissions team, the small class sizes and the general availability of staff, faculty, and leadership to address concerns and provide support. I knew my child would thrive in a smaller environment, where services are much more personalized, and people understand her strengths and development needs. Also, I wanted my daughter to experience a community where her voice is heard and she is more than just a number.”

Mother of Nivedya Vijay

"As an international student preparing to study in Canada, I remember all the questions and concerns my parents and I had while navigating the application process in a new country. Having personally gone through these experiences, I want you to know that my team and I are here to individually support you with every step of the process to make it completely stress-free for you, while identifying exceptional scholarship and career development opportunities that are tailored to your personal profile and passions. I chose to attend Huron over all the other universities I was accepted to for its unique advantages, vibrant campus social life and impressive alumni network. When I compare my experiences at Huron to those of my high school friends at some of Canada's largest universities, it's obvious that none of them enjoyed the same access to professors, prestigious career opportunities and impressive alumni connections that were always available to me at Huron."
