

CGS 3522F GLOBAL MOBILITIES
(Prerequisite: 0.5 CGS course at 1000-1099 level,
or permission of the Centre for Global Studies)
The Centre for Global Studies
Huron University College
Fall 2017

COURSE DESCRIPTION

This course examines human movement in its most basic form: walking. In the first half, we pursue questions of global mobility through a variety of philosophical, literary and artistic works. Beginning with the late 19th century we explore the role of walking in the rise of modernity through the figure of the flaneur and the practices of everyday life. We pay particular attention to the ways in which walking under the influence of Western poets and philosophers came to represent freedom and progress rather than poverty and toil. In the second half, we explore walking (or not walking) as a mode of resistance, especially in relation to indigenous practices of counter-mapping. Reading maps as sites of dispossession, we analyze how walking as mapping is represented and utilized as a form of dissent by contemporary artists and activists. Key questions include: How does walking mediate the relationship between humans and the world? How have modern theories, practices and representations of walking influenced our understanding of global mobility? How does walking conflict with other forms of mobility in an age of increased speed, surveillance and interconnectedness? What is the relation of walking to forms of social, political, economic and environmental crisis? How can we use walking as counter-mapping to expose ongoing forms of colonialism and dispossession? Overall, recognizing that forms of mobility are embedded within existing power structures, we are interested in the way walking shapes and is shaped by social, political, cultural, legal and economic orders within the narratives of modernity and postmodernity.

Learning Outcomes

Upon completing the course, students should be able to:

- 1) Understand and explain walking in its various forms as a fundamental aspect of global mobility
- 2) Situate different practices, politics and philosophies of walking in socio-historical context
- 3) Consider walking in relation to other forms of mobility and immobility on both global and local scales
- 4) Examine and critique representations of walking in art and literature
- 5) Analyze walking as a social, cultural and political practice
- 6) Use counter-mapping as a tool to expose the operations of dominant power structures

Modes of Evaluation

Participation	10%
Blog	20%
Chemical Valley Assignment	15%
Group Counter-Mapping Project	20%
Group Presentation	10%
Final Essay	25%

Assignment Descriptions

Participation (10%)

Your participation grade is based on attendance and in-class participation, which means coming to class on time having done all the assigned readings and being prepared with questions and/or contributions based on these readings. As a rule, speaking more often does not mean you will receive a higher participation grade; the content of your contribution is equally important. Half a percent (0.5%) will be deducted for each unexcused absence.

Blog (20%)

For this assignment, you will take three walks between weeks 2 and 12 to be signed up for in advance. At least one of these walks must take place within the first six weeks. In each case, you will use one of the key concepts from the course readings for that week as a guiding principle for your walk. Each walk will be followed up by a short critical reflection to be posted on the course

blog. Each entry should be roughly 3-5 paragraphs (no more than 500 words) and is worth 5%. For the remaining 5% of your grade you must post 5 responses to 5 different peer blog entries.

Due: Various dates

Chemical Valley Assignment (15%)

Building on our field trip to Sarnia, Ontario, where we will take a walking tour of chemical valley lead by a member of Aamjiwinaang Solidarity, you will write a short paper (no more than 750 words) describing the ways in which walking in this context operates as a form of counter-mapping.

Due: November 2

Group Counter-Mapping Project (20%)

This project requires you to develop a local counter-mapping project that incorporates concepts regarding the aesthetics and/or politics of walking. Working in small groups of 3-4, use the course concepts to situate elements of local space in relation to forms of global mobility, movement and history. Specific examples and further resources for this project will be provided on OWL.

Due: Proposal, October 26 (10%); Project, November 23 (15%)

Group Presentations (20%)

For this assignment, as a group you will present your counter-mapping project to the class.

Due: December 7

Final Essay (25%)

Write a short essay (1200-1500 words not including bibliography) reporting on and analyzing your counter-mapping project. In your critical reflection, you should attempt to comment on the successful aspects of the project and identify any limitations or failures. This paper should be typed and double-spaced using 12-pt Times New Roman font. All references must be properly cited using MLA, Chicago or another suitable referencing system.

Due: December 7

Methods of Instruction and Course Conduct

This course uses a combination of lectures and class discussion to examine the aesthetics and politics of walking in the context of global mobility. Lectures are predominantly oral with some multi-media elements. They are grounded in and provide a detailed elaboration of the course readings, as well as relevant historical context and secondary commentary when necessary. Class discussions are meant to provide a respectful forum for questioning, clarifying and working through ideas presented in the lectures.

You are expected to take responsibility for your own learning by:

1. Completing ALL readings prior to class and bringing annotated hard copies
2. Coming prepared with questions and/or points of discussion
3. Maintaining regular attendance and notifying me of any necessary absences in advance
4. Consulting the course syllabus regularly for reading schedules and assignment deadlines

COURSE POLICIES

Email

I will make every attempt to reply to emails on the same day if they are received between the hours of 9am and 6pm. I do not check my emails after 6pm on weekdays or at all on weekends.

Kindly allow 48 hours before sending a gentle reminder. Please contact me using only your university email account and include the course code in your subject line. In the case of an urgent message, please contact me instead by telephone.

Office Hours and Appointments

If you wish to utilize office hours, please contact me at least 24 hours in advance to make an appointment. Appointments are limited and granted on a first-come, first-serve basis. If you are unable to attend allocated office hours, please contact me to discuss an alternative appointment time. Unfortunately, while I will do my best to accommodate, I cannot guarantee appointments outside of my office hours. For any appointment, please come prepared with specific questions and concerns as appointments are limited to 15 minutes each.

Class Cancellations

In the event of unexpected class cancellations, I will post an announcement on OWL as soon as possible. Every attempt will be made to post cancellations in advance.

Grading Scale

A+ (90-100)	Superb. No mistakes, well-written, well-researched, original thesis. One could scarcely expect better from a student at this level.
A (80-89)	Excellent. No mistakes, well-written and distinctive but not original. Superior work that is clearly above average.
B (70-79)	Good. No serious mistakes, well-written but not distinctive. Good work, meeting all requirements, and eminently satisfactory.
C (60-69)	Fine. Some errors, but demonstrates a basic understanding of the material. Competent work, meeting basic requirements.
D (50-59)	Poor. Many errors, and a dubious grasp of the material. Fair work, minimally acceptable.
F (below 50)	Fail. Problematic on all fronts. No real grasp of material or complete lack of effort.

Late Assignments

5% will be deducted per day up until one week. I will not accept assignments that are more than one week late unless you have been granted academic accommodation.

Assignment Discussion and Grade Appeals

I will provide detailed feedback on all assignments to make the assigned grade clear. If you wish to discuss your grade you must make an in-person appointment during a pre-designated time that will be announced when the assignment is returned – I will not discuss grades via email. Before your appointment, please review the feedback in relation to assignment guidelines and grading scale (above). Appointments will not be granted if more than one week has passed since the assignment was returned. If after discussing your grade with me you wish to appeal it, you must make a request in writing that shows how your paper meets the necessary requirements. Be aware that reassessment of the assignment may potentially result in a *grade decrease*.

Appendix to Course Outlines

Prerequisite Information

Students are responsible for ensuring that they have successfully completed all course prerequisites. Unless you have either the requisites for this course or written special permission from your Provost and Dean to enrol in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Conduct of Students in Classes, Lectures, and Seminars

Membership in the community of Huron University College and the University of Western Ontario implies acceptance by every student of the principle of respect for the rights, responsibilities, dignity and well-being of others and a readiness to support an environment conducive to the intellectual and personal growth of all who study, work and live within it. Upon registration, students assume the responsibilities that such registration entails. The academic and social privileges granted to each student are conditional upon the fulfillment of these responsibilities.

In the classroom, students are expected to behave in a manner that supports the learning environment of others. Students can avoid any unnecessary disruption of the class by arriving in sufficient time to be seated and ready for the start of the class, by remaining silent while the professor is speaking or another student has the floor, and by taking care of personal needs prior to the start of class. If a student is late, or knows that he/she will have to leave class early, be courteous: sit in an aisle seat and enter and leave quietly.

Please see the *Code of Student Rights and Responsibilities* at:

<http://www.huronuc.ca/CurrentStudents/StudentLifeandSupportServices/StudentDiscipline>

Technology

It is not appropriate to use technology (such as, but not limited to, laptops, cell phones) in the classroom for non-classroom activities. Such activity is disruptive and is distracting to other students and to the instructor, and can inhibit learning. Students are expected to respect the classroom environment and to refrain from inappropriate use of technology and other electronic devices in class.

Academic Accommodation for Medical/Non-Medical Grounds

Students who require special accommodation for tests and/or other course components must make the appropriate arrangements with the Student Development Centre (SDC). Further details concerning policies and procedures may be found at:

http://www.sdc.uwo.ca/ssd/?requesting_acc

- (a) **Medical Grounds** for assignments **worth 10% or more of final grade**: Go Directly to Academic Advising

University Senate policy, which can be found at

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf,

requires that all student requests for accommodation on medical grounds for assignments worth 10% or more of the final grade be made directly to the academic advising office of the home faculty (for Huron students, the “home faculty” is Huron), with supporting documentation in the form (minimally) of the Senate-approved Student Medical Certificate found at:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform_15JUN.pdf.

The documentation is submitted in confidence and will not be shown to instructors. The advisors will contact the instructor when the medical documentation is received, and will outline the severity and duration of the medical challenge as expressed on the Student Medical Certificate and in any other supporting documentation. The student will be informed that the instructor has been notified of the presence of medical documentation, and will be instructed to work as quickly as possible with the instructor on an agreement for accommodation. The instructor will not normally deny accommodation where appropriate medical documentation is in place and where the duration it describes aligns with the due date(s) of assignment(s). Before denying a request for accommodation on medical grounds, the instructor will consult with the Provost and Dean. The instructor’s decision is appealable to the Provost and Dean.

**(b) Accommodation on Medical Grounds for assignments worth less than 10% of final grade:
Consult Instructor Directly**

When seeking accommodation on medical grounds for assignments worth less than 10% of the final course grade, the student should contact the instructor directly. The student need only share broad outlines of the medical situation. The instructor **may** require the student to submit documentation to the academic advisors, in which case she or he will advise the student and inform the academic advisors to expect documentation. The instructor may not collect medical documentation. The advisors will contact the instructor when the medical documentation is received, and will outline the severity and duration of the medical challenge as expressed on the Student Medical Certificate and in any other supporting documentation. The student will be informed that the instructor has been notified of the presence of medical documentation, and will be instructed to work as quickly as possible with the instructor on an agreement for accommodation. The instructor will not normally deny accommodation where appropriate medical documentation is in place and where the duration it describes aligns with the due date(s) of assignment(s). Before denying a request for accommodation on medical grounds, the instructor will consult with the Provost and Dean. The instructor’s decision is appealable to the Provost and Dean.

(c) Non-medical Grounds: Consult Instructor Directly

Where the grounds for seeking accommodation are not medical, the student should contact the instructor directly. Late penalties may apply at the discretion of the instructor. Apart from the exception noted below, academic advisors will not be involved in the process of accommodation for non-medical reasons.

Where a student seeks accommodation on non-medical grounds where confidentiality is a concern, the student should approach an academic advisor with any documentation available. The advisors will contact the instructor after the student’s request is received, and will outline the severity and duration of the challenge without breaching confidence. The student will be informed that the instructor has been notified that significant circumstances are affecting or have affected the student’s ability to complete work, and the student will be instructed to work as quickly as possible with the instructor on an agreement for accommodation. Before denying a request for accommodation where documentation has been submitted to an academic advisor, the instructor will consult with the Provost and Dean. The instructor’s decision is appealable to the Provost and Dean.

Statement on Academic Offences

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

Statement on Academic Integrity

The International Centre for Academic Integrity defines academic integrity as "a commitment, even in the face of adversity, to five fundamental values: honesty, trust, fairness, respect, and responsibility. From these values flow principles of behaviour that enable academic communities to translate ideals to action." (CAI Fundamental Values Project, 1999).

A lack of academic integrity is indicated by such behaviours as the following:

- Cheating on tests;
- Fraudulent submissions online;
- Plagiarism in papers submitted (including failure to cite and piecing together unattributed sources);
- Unauthorized resubmission of course work to a different course;
- Helping someone else cheat;
- Unauthorized collaboration;
- Fabrication of results or sources;
- Purchasing work and representing it as one's own.

Academic Integrity: Importance and Impact

Being at university means engaging with a variety of communities in the pursuit and sharing of knowledge and understanding in ways that are clear, respectful, efficient, and productive. University communities have established norms of academic integrity to ensure responsible, honest, and ethical behavior in the academic work of the university, which is best done when sources of ideas are properly and fully acknowledged and when responsibility for ideas is fully and accurately represented.

In the academic sphere, unacknowledged use of another's work or ideas is not only an offence against the community of scholars and an obstacle to academic productivity. It may also be understood as fraud and may constitute an infringement of legal copyright.

A university is a place for fulfilling one's potential and challenging oneself, and this means rising to challenges rather than finding ways around them. The achievements in an individual's university studies can only be fairly evaluated quantitatively through true and honest representation of the actual learning done by the student. Equity in assessment for all students is ensured through fair representation of the efforts by each.

Acting with integrity at university constitutes a good set of practices for maintaining integrity in later life. Offences against academic integrity are therefore taken very seriously as part of the university's work in preparing students to serve, lead, and innovate in the world at large.

A university degree is a significant investment of an individual's, and the public's, time, energies, and resources in the future, and habits of academic integrity protect that investment by preserving the university's reputation and ensuring public confidence in higher education.

Students found guilty of plagiarism will suffer consequences ranging from a grade reduction to failure in the course to expulsion from the university. In addition, a formal letter documenting the offence will be filed in the Provost and Dean's Office, and this record of the offence will be retained

in the Provost and Dean's Office for the duration of the student's academic career at Huron University College.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Personal Response Systems ("clickers") may be used in some classes. If clickers are to be used in a class, it is the responsibility of the student to ensure that the device is activated and functional. Students must see their instructor if they have any concerns about whether the clicker is malfunctioning. Students must use only their own clicker. If clicker records are used to compute a portion of the course grade:

- the use of somebody else's clicker in class constitutes a scholastic offence,
- the possession of a clicker belonging to another student will be interpreted as an attempt to commit a scholastic offence.

Policy on Special Needs

Students who require special accommodation for tests and/or other course components must make the appropriate arrangements with the Student Development Centre (SDC). Further details concerning policies and procedures may be found at:

http://www.sdc.uwo.ca/ssd/?requesting_acc

Attendance Regulations for Examinations

A student is entitled to be examined in courses in which registration is maintained, subject to the following limitations:

- 1) A student may be debarred from writing the final examination for failure to maintain satisfactory academic standing throughout the year.
- 2) Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course will be reported to the Provost and Dean of the Faculty offering the course (after due warning has been given). On the recommendation of the Department concerned, and with the permission of the Provost and Dean of that Faculty, the student will be debarred from taking the regular examination in the course. The Provost and Dean of the Faculty offering the course will communicate that decision to the Provost and Dean of the Faculty of registration.

Class Cancellations

In the event of a cancellation of class, every effort will be made to post that information on the Huron website, <http://www.huronuc.ca/AccessibilityInfo> ("Class Cancellations").

Mental Health @ Western

Students who are in emotional/mental distress should refer to Mental Health @ Western <http://www.uwo.ca/uwocom/mentalhealth/> for a complete list of options about how to obtain help.

Academic Advising

For advice on course selections, degree requirements, and for assistance with requests for medical accommodation [see above], students should contact an Academic Advisor in Huron's Student Support

Services (hurousss@uwo.ca). An outline of the range of services offered is found on the Huron website at: <http://www.huronuc.ca/CurrentStudents/AcademicAdvisorsandServices>

Department Chairs and Program Directors and Coordinators are also able to answer questions about their individual programs. Their contact information can be found on the Huron website at: <http://www.huronuc.ca/Academics/FacultyofArtsandSocialScience>
