## TAKE PART IN OUR COUNTRY'S BEST ORIENTATION EXPERIENCE

From the moment you arrive on our campus, you're going to recognize how differently we do things. Drop off your belongings – alongside any reservations you have about making friends – with our Sophs.

Smiling senior students will carry all the items you bring with you to make your new residence feel like home. This warm welcome – which practically every member of our Huron community takes part in – kicks off what just might be the **best week of your life**.

## WHAT'S IN A NAME?

If you think the word Soph is strange, just wait until you learn your senior leaders' nicknames! You'll have to wait until the END of O-Week to find out exactly who these kind, energetic and helpful mentors really are.

In the meantime, your Sophs are here to support your transition into this brand-new territory of post-secondary living and learning. From taking you to your O-Week events through to amping up the awesomeness of your residence experiences, consider your Sophs your go-to guides on everything Huron.

**If you're coming from across the border – or the pond - learn more about the difference our exclusive, tightknit community will make during your Welcome Week on pages 18-19.**

## WHAT ELSE DOES YOUR O-WEEK HOLD IN STORE?

- Games, performances, contests & activities with everyone on Huron's campus – and your new friends within the Western Community

# OUR CULTURE OF CARE

WHEN OUR STUDENTS ENCOUNTER CHALLENGES AT AN INDIVIDUAL LEVEL OR WANT TO MAKE LARGE-SCALE CHANGE, THEY NEVER ENCOUNTER **RED TAPE.**

*“Whether you realize it or not, the type of environment your university fosters will have a major impact on how you connect with people – and that leads into how satisfied you are with your education. University is not just about studying. It’s about your free time, extracurricular activities and who you’re surrounded by – on and off campus. When I got to Huron, I realized very quickly my fears about being left on my own were completely unfounded. People are so accommodating and personable, and that sense of visibility and community really matters to students.”*

# HURON TAKES YOUR PROGRESS PERSONALLY

**ALEXIS MADGER IS THE FOUNDER OF FLOW**, a non-profit aimed at breaking the stigma around menstruation. The four pillars of her organization are to Educate, Eradicate (stigma), Equip (women with supplies) & Empower.

When Alexis first visited campus, her interactions with our community led her to believe, "I would actually be heard at Huron." Once she enrolled, she realized her intuition was spot on.

Alexis travelled internationally to volunteer as a leader in facilitation training, and she quickly realized there was a problem: young women were not allowed to attend school simply because they had their periods. While the eager young leader knew she wanted to do something to address this, she didn't exactly know how to go about it.

**Fortunately, she chose to come to a university where not only was she listened to, but her voice - and mission - were carried across our campus.**

Fast forward to Alexis sitting in the office of Meaghan Blight, our Vice-President, University Growth, where the two discussed how to ensure our school was aligning with the four pillars of FLOW.

After deciding to bring free hygiene products into our bathrooms, Meaghan connected Alexis to Natalie Cross, the 2019-2020 Vice-President of Student Affairs, to build upon Alexis's momentum.

**"Because she knew how much it meant to me, Meaghan championed my involvement with Huron's Students' Council. As a result, I received extremely meaningful mentorship from Natalie," Alexis shares. "She connected me with Huron's Wellness Centre, and I've worked closely with their team to establish a variety of stigma-breaking initiatives."**

Simultaneously, Alexis earned an internship with our Career Development Centre and was elected to take over Natalie's role as VP, Student Affairs for 2020-2021. Now she is working on a Volunteer Day to bolster campus-wide support for non-profits, while furthering FLOW's mission.

# PROFESSORS WHO ARE PERSONALLY INVESTED IN YOUR GOALS WILL BE YOUR MENTORS AND REFERENCES

When he visited Huron, Conor Wilkinson was surprised by the fact his courses would be run by professors, not teaching assistants. **Little did he know how much this distinct advantage would impact his life.**

During his four years here, Conor enjoyed multiple classes with History Professor – and our Provost & Dean of FASS – Dr. Geoff Read.

**“The best thing about Huron is professors know and care about who you are – from day one,”** Conor says. **“They are dedicated to teaching at a level that is rare at bigger institutions and they create uncommon opportunities for you to engage in intellectually stimulating ways.”**

**When it came to applying to Ivy League post-graduate programs, Conor knew he could lean on his Huron connections.**

Throughout all four years, Dr. Read kept a detailed record of Conor’s work, so the reference he provided was profoundly personal – speaking to Conor’s traits as an individual, not an unfamiliar face in an overcrowded lecture hall. The result? Conor was admitted to Columbia University where he’s seen exactly how well Huron prepares its students to succeed in elite collegiate environments.

**“We understand our students and take pride in their progress,”** explains Dr. Read. **“Students receive individualized mentorship from professors who witness the evolution of their students’ work - not just in a single class, but from term to term and year to year.”**

# OUR PROFESSORS' DEDICATION TO YOUR DEVELOPMENT DOES NOT END AT THE CLASSROOM DOOR

Samara Bell is developing into an exemplary figure for young women who want to pursue their dreams.

One of the steps towards becoming a global leader Huron helped Samara take was to connect her with an exchange at UNSW in Sydney, Australia.

During her time at Huron, Samara also attended the Canadian Jewish Political Affairs Committee conference where she met her business partner and the Founder of Female Laboratory of Innovative Knowledge **FLIK**

## AT HURON, IT'S NOT ONLY THE FUTURE THAT WILL BE FEMALE

We've launched the Creating Equal Opportunities (CEO) Bursary, so more women get to redefine whichever industry they CHOOSE to work in.

*"One of the most rewarding parts of teaching is being able to mentor and collaborate with my students. Huron's close community encourages students and professors to work alongside one another. When working with individual students on joint projects, I'm certain I learn as much from them as they might from me."*

*"FLIK is made up of innovators who had to jump through hoops to get where they are. They realize, in order to recruit more female talent, they need to stand up as mentors who show young women you don't have to relinquish your ambitions, regardless of the barriers you encounter."*

Dr. Sara MacDonald demonstrated the power of mentorship when she invited Samara to collaboratively conduct research to support the non-profit My Sister's Place. Together, they investigated arts-based ways to comment on policies that inform decision-making.

"I was taught by Professor MacDonald for two years in a row," Samara explains "She is an amazing role model who really inspired me to pursue my interests. In her courses, it's not just about writing essays, she encouraged us to go out and discover inspiration in the mundane."

**If you want to inspire others and remove obstacles to their successes, we look forward to supporting your noble ambitions at Huron.**

**ENGAGED STUDENTS ARE 2.5x more likely to achieve high marks than their disengaged peers**

**UNIVERSITY GRADUATES ARE 2x more likely to be engaged at work if they had a mentor who encouraged them to pursue their goals and dreams**

# THE EXPERIENCES WE CREATE FOR **INTERNATIONAL STUDENTS** ARE JUST LIKE YOU – TRULY ONE-OF-A-KIND

*"I have not questioned my decision to come to Huron once. I absolutely love it. *"Huron has taught me to appreciate the value of everyone's voices and the importance of listening to them. It's hard to fully understand the implications of the things you learn in class until you live them. When you travel abroad, you gain a different perspective. This will make you an invaluable leader because all business is global, and organizations need people who understand how to operate within international environments."*

# VOLUNTEERISM IS AN INTEGRAL PART OF LEADING WITH HEART

We are going to strongly encourage you to engage with your communities in ways that benefit the world. Volunteerism feels great. More than that, it diversifies your perspectives and practical skill set. At Huron, you can easily access hundreds of opportunities with non-profits on our campus, through Western, around London or in your hometown.

Alternatively, like Ruth, you may want to extend your positive influence by taking part in an international volunteer experience:

- Learn about healing from shared trauma in Rwanda
- Visit Indigenous Canadian communities to engage with the eye-opening stories of elders
- Explore the ramifications of the slave trade in England and Canada

No matter which travel, research and volunteer experiences you take part in, you can trust all of them will greatly extend your classroom learning, while teaching you what it takes to be a more effective global citizen.

*“My Huron degree has given me the tools to create change in ways that don’t deny someone else’s agency. Leadership with Heart is recognizing your position within the community and understanding how your privilege can be put to use in ways that benefit others on a global level. When you can go home and know you’ve lived your life in such a way – you’ve been empathetic and supportive – that’s what Huron’s volunteer experiences are all about.”*

Huron's educational experiences helped Christianne Morrison distinguish herself for the Royal Bank of Canada Diversity Scholarship and secure a highly coveted position on Toronto's stock exchange trading floor.

**As an intern with the global financial institution, Christianne's Huron experiences continued to help her stand out.**

**"Huron taught me to create solutions to complex problems, and my employer commended my ability to be innovative and entrepreneurial,"** Christianne explains.

Christianne developed the skill set that helped her secure a permanent position with RBC by taking advantage of the ample opportunities our selective recruiting creates.

Our high ratio of resources-to-students means, like Christianne, your university experience can involve any of the following:

- Presenting at our CURL Conferences
- Taking part in a **paid internship**
- Being on Students' Council
- Volunteering with your charity of choice
- Becoming an Orientation Week Leader (Soph)
- Performing with our Dramatic Society

**More than just building great portfolios, Huron's character-based curriculum empowers us to graduate great people with the essential skills to succeed.**

"Liberal Arts graduates are a rare breed. We see the world differently than those around us whose educations have a narrow focus," Huron's previous Students' Council President shares. "You encounter so many people who don't have this breadth of learning. We get to sample so many different ways of seeing the world's needs. A Liberal Arts degree couldn't be better timed."

***"Holding a Liberal Arts degree means I always have a unique perspective in the room. This influenced my approach to seminars at Ivey and continues to influence my approach to global trades."***

**“A successful career doesn’t start with a resume, it starts with the relationships you build.”**

As soon as Jash arrived from Dubai, he connected with our Associate Vice-President, Partnerships whose Career Development team has fundamentally shaped his success.

“Reaching out to people is so important,” Jash shares. “Students are often intimidated to say exactly where they want to go, but at Huron, you’re strongly encouraged to make yourself visible.”

As an international student invested in contributing to his new community, Jash took part in Huron’s CityStudio course where he collaboratively tackled real issues affecting the City of London and submitted a report regarding governance strategies to municipal leaders.

With the strong recommendation of our AVP, Partnerships and resume help to better reflect his **paid internship** experience as a Marketing & Communications Intern at Huron, Jash successfully applied to work with the City as a Cultural Connector.

Sagar Jiwani, who was hired by LinkedIn® before he even graduated, agrees with Jash about the importance of relationships – and the ease with which you’re able to develop them at Huron.

Prior to becoming a student, Sagar had already benefited from our university’s culture of care. To help ease the financial burden of his transition from Calgary, one of our recruiters suggested he apply for our Hellmuth Scholarship. “Because I didn’t have any special head starts in life, this support made one of my biggest achievements possible,” Sagar explains.

**Since then, our faculty and staff have never stopped advocating for Sagar.**

“At Huron, you’re pushed more and benefit more from professors and administrators who are excited to help you grow beyond the bubble you may be in.”

In second year, Huron’s emphasis on relationships resulted in Sagar earning a spot as a Brand Management intern with Canadian Tire because one of our professors went “above and beyond” to put Sagar’s name forward.

Huron’s dedication to fostering student success also landed Sagar an internship with Unilever. Eventually, all this invaluable work experience earned him a job with the world’s leading networking platform in Chicago.

“Transformative opportunities are easily presented to you at Huron. It’s not like a large institution where you have to seek them out. Take advantage of those resources. This is ultimately how you will secure a desirable network and career.”

# WHY CHOOSE BETWEEN ENTREPRENEURIALISM AND A SUPERIOR EDUCATION WHEN YOU CAN HAVE BOTH?

When we look at the types of leaders who have redefined the ways we interact with the world, many of them are entrepreneurs who thought they had to choose between innovation and academia.

We refuse to believe it has to be one or the other, so we've created educational ecosystems that nurture the entrepreneurial spirit, while also honouring the educated mind and socially responsible heart.

When you look at the professional journey of Dave Nugent, you see how Huron is uniquely positioned to foster entrepreneurial ingenuity and collaborations.

After graduation, Dave pursued a career in investment banking, but realized that wasn't where his passions truly lay. When Huron associate, Mike Katchen, reached out with an idea for a not-yet-named company, Nugent jumped at the opportunity to help get the idea off the ground.

“The Huron connection is what brought us together,” shares the former HUCSC President. “When Mike talked about his idea, I wondered, ‘Why hadn't someone done this before?’”

Dave admits people were shocked by his leap from a secure career into the unknown, but Wealthsimple's success speaks to the importance of believing in yourself, leveraging connections and taking risks – something a Huron degree readies you for.

WE'RE NOT IN THE BUSINESS OF BELIEVING IN "NATURAL BORN LEADERS". INSTEAD, WE MATCH OUR STUDENTS WITH MENTORS WHO LIVE OUR VALUES AND ENCOURAGE THE NEXT GENERATION OF **LEADERS WITH HEART** TO DO THE SAME.

## **Who better to tell you about the value of mentorship than your powerhouse advocate, supporter and Students' Council President, Ziyana Kotadia?**

Mentorship is one of the hallmarks of what makes the Huron community so special. When I was in first year, connecting with mentors - both as friends and resources - was incredibly empowering. I owe a lot of my success to their guidance.

Huron is all about paying it forward: you learn from leaders, who shape your student experience, and then - as a senior student and alumni - you provide others with that same support as they progress through university - and far beyond it.

You're about to have direct access to an impressive network through Huron's Mentorship Program. Your Career Development Team will match you with inspiring alumni who are eager to pass on their knowledge and network. You will also have ample opportunities to make connections through events, faculty, administration and Huron's Students' Council along the way.

I am committed to being a source of support for each and every one of you. In turn, I am excited to see what you will contribute to our culture of excellence. Whatever you need, I will be here: just pop into our Council office, send me an email or wave me over in the halls.

# WHEN A GLOBAL CRISIS DEMANDED ACTION, OUR **LEADERS WITH HEART** RESPONDED WITH COMPASSION

In the spring of 2020, COVID-19 required a unique response from every person affected. While each of our individual situations differed, we shared the civic responsibility to protect one another.

Unsurprisingly, our student leaders did not hesitate to support our most vulnerable populations by contributing \$10,000 towards Huron's Student Relief Fund.

In keeping with their dedication to lead by example, our President, Dr. Barry Craig, and his wife, Huron Professor, Dr. Sara MacDonald, also donated \$100,000 to increase the fund's reach.

Together, we helped hundreds of students get home safely and alleviated the financial, mental and emotional repercussions of an unforeseen global event.

## WHAT'S MORE HURON THAN THAT?

*"When news of COVID-19 began to spread across the world, our community refused to cower under the weight of ominous headlines. Instead, Huron's students, faculty and staff banded together, demonstrating patience, selflessness and resolve. We emerged as an even stronger institution that continues to take seriously the lesson of mutual dependence required to support the greater good."*

**HURON STUDENTS LEAD THE NATION IN CIVIC ENGAGEMENT: TURNOUTS FOR STUDENT ELECTIONS ARE ALMOST DOUBLE THE NATIONAL AVERAGE.**

## GLOBAL CHALLENGES ARE NOTHING NEW NEITHER IS OUR STUDENTS' DEDICATION TO SERVING THE BEST INTERESTS OF THOSE AROUND THEM

**Some crises are quieter than others, but that does not mean they are any less deserving of our attention.**

Unfortunately, universal access to quality education is not yet a reality. Luckily, however, there are people who understand where you come from should not dictate where you end up – and many of those types of people are part of our community. That's why, Huron has been a proud sponsor of World University Services of Canada's Student (WUSC) Refugee Program for more than 20 years.

While we've always tried to do our part, in 2018, our students decided we could do even more. They voted on a Student Referendum, which increased their fees to generate an additional \$5,000 annually towards our student refugee program – making Huron BY FAR the greatest per capita contributor in all of Canada.

"This referendum marked our realization that a lot of our peers, who come from abroad, have trouble making ends meet. As students, who are privileged to engage in Canada's educational system, we have a responsibility to enhance access for those who also deserve this opportunity," explains Dylan Matthews.

*"I was exceptionally proud students overwhelmingly voted for it. Normally, referendums are for decreasing student fees or to bolster social events. I think what Huron's response really shows is we understand, when it comes to student politics, there are some things that are more meaningful to our student experience than just what the next bar night is going to be."*

## FROM REVOLUTIONIZING YOUR CUP OF COFFEE TO CLEANING UP CORPORATE POLICIES, OUR LEADERS DON'T CONSIDER IT A SUCCESS UNLESS IT'S SUSTAINABLE.

In 2019, Natalie began running Cafézia Coffee, a business that sells Organic Fairtrade coffee infused with herbs to add numerous health benefits. From its zero waste program through to the ways Natalie supports retailers to align with her environmentally-forward practices, Cafézia goes far beyond the marketing trend of “green-washing.”

Natalie acknowledges part of running a for-profit company means making money. But, she refuses to believe her success has to come at the cost of her morals. While Natalie’s conscientious practices are more logistically challenging to implement, “It makes me feel good we are actually living our values and implementing the practices to back up our claims – we’re the real deal when it comes to sustainability,” Natalie states.

***“I absolutely loved Huron. One of the most distinguishing aspects of our university is its emphasis on doing the right thing. At Huron, you are surrounded by like-minded individuals who are just as cognizant as you are about balancing success with their moral foundations, so it constantly makes you want to take the initiative to do the good the world demands. Even when you leave the school, you never forget that obligation.”***

Rohan Jain is an entrepreneurial activist who is enhancing the world’s approach to balancing environmental concerns with economic benefit. He runs *The Green Climate Post*, which is an evidence-based environmental news and advocacy platform. What began as a personal initiative quickly blossomed into something much more.

In his second year at Huron, Rohan began working with a Toronto law firm to further progress plastic legislation. Empowered by his research regarding the shortcomings of current environmental policies, Rohan championed a new way forward to protect Canada’s ecosystems. Before he knew it, Rohan was meeting with MPs to discuss his ideas. The culmination of these meetings was a sit down with Justin Trudeau, which Rohan calls, “absolutely surreal.”

Not long after, the Federal Government announced a plan to ban single use plastics, and Rohan shares, “I realized all my hard work wasn’t for nothing.”

# ASK AND ANSWER QUESTIONS THAT CHANGE THE WAY YOU SEE THE WORLD AND THE WAY THE WORLD SEES YOU

One of the most distinguishing features of Huron is our dedication to engaging students in research. The following are just some of the ways you can explore your curiosities:

- Hands-on projects woven into your coursework
- 1:1 research mentorship opportunities with the professor of your choice
- Conducting and presenting investigations through our Centre for Undergraduate Research Learning (CURL)
- Independent or collaborative explorations around the world
- Paid research assistant positions with field experts

During his degree, Jiazheng was fortunate to take several courses with Professor Mahdiyeh Entezarkheir whose prioritization of student research empowered him to share his findings during our CURL conference.

“Huron has a highly collaborative environment, so students get exposed to different ways of thinking,” Jiazheng said. “Unlike many other institutions, it’s not only about attendance or memorization here, you are constantly given opportunities to share and defend your work.”

As a globally-published academic, Dr. Entezarkheir is thankful to work at a university whose nimble size makes it possible to foster students’ research capabilities.

“Our students produce something that is so valuable – both in terms of their portfolios and the global scholarly conversation,” she says. “CURL shows them what they learn in class is not just for the sake of getting marks.”

**CURL** aims to transform undergraduate education through experiential learning opportunities that support students in research, academia and their future careers.

**CURL Travel Bursaries:** \$500 bursaries are awarded each year to enable students to travel to conferences, workshops and other events that foster research and career development.

**CURL Conferences:** Two opportunities to showcase your discoveries: The Fall Exhibition and Spring Conference offer on-campus opportunities for students to present their research in multiple formats.

## IF YOU WANT TO MAKE YOUR MARK, DON'T JUST PURSUE THE "RIGHT" ANSWERS: REDEFINE THE QUESTIONS.

Both Jiazheng and Dr. Entezarkheir recognize the value of research for successful graduate school applications. For students who eventually want to apply to graduate school, Dr. Entezarkheir explains, "When the selection committee sees a student is already familiar with how to generate tangible research, that is definitely a bonus."

On the other side of the application table, Jiazheng shares, "CURL is exceptional at the undergraduate level, and it will be great for my applications to universities across Canada. More than that, once I begin graduate school, I'll already be ahead of many of my classmates who have not experienced this type of intensive growth experience."

*"At Huron, we truly provide wraparound services to facilitate our students' learning. I meet with my students, one-on-one, frequently to ensure they're on the right track. They also receive incredible support from our Library and Learning Services team members who come into our classes and know each student by name, ensure their research is sound and they're able to present it in extremely innovative ways."*

# EXPLORE QUESTIONS YOU NEVER THOUGHT TO ASK BEFORE

**Scholar's Electives** is a highly-regarded program designed to develop your skills as an independent researcher through a curriculum that weaves over and above the courses required for your degree program.

When we asked our current Scholar's Electives students about the program, they raved about the one-on-one faculty mentorship they receive.

**NOT TO MENTION, THEY UNANIMOUSLY RESPONDED, "100% WOULD RECOMMEND IT!"**

"There are very few other institutions that give you this level of freedom and agency. Your professors work with you like colleagues and you bond with peers who share your investment in academic rigour."

In this tight-knit scholarly community, your learning will differ greatly from traditional lecture-style coursework. Scholar's Electives sets you up to investigate "bizarre, relevant and amazing" questions.

This program allows you the flexibility to conduct self-directed research that reflects your changing interests and current world issues by giving you the opportunity to expand upon the breadth of your knowledge.

*"My independent research was the most formative experience of my undergraduate degree. Through Scholar's Electives and the Centre for Undergraduate Research and Learning (CURL), I worked with educators from international backgrounds, which shaped my pursuit of graduate studies. This foundation was instrumental for my application to Harvard as it distinguished me from other students."*

# HURON PREPARES YOU TO EXCEL WITHIN THE CLASSROOM AND THE COURTROOM

*“Teachers know your name here, and they don’t hesitate to call on you. It’s much more of a conversation between colleagues than a passive listening experience. This style of learning challenges you to become a more agile thinker and eloquent presenter, and that’s what really helped me stand out against the competition.”*

## WHAT DOES IT TAKE TO WIN WESTERN UNIVERSITY’S PRE-LAW MOCK TRIAL COMPETITION TWO YEARS IN A ROW?

“The ability to think on your feet,” shares Maria – a Huron student who remains undefeated in the prestigious Pre-Law Society competition. “Right in the middle of your statement, the judge may interrupt you and you have to respond more effectively than anyone else.”

Fortunately for her Mock Trial prep, Maria chose to come to Huron where small class sizes mean every student is expected to contribute and take feedback directly from their peers and professors.

Huron students not only have access to all the specialized law classes offered at Western, but they also get to take part in both campuses’ extracurricular activities, which contributes to a winning law school application.

In addition to a prize of \$600, this competition, which places you in front of Crown attorneys and law students, is an excellent way to demonstrate your enthusiasm and competency for a legal career.

**HURON LEADERS ARE HUMBLE:** A big shout out to Maria’s Dad for contacting us to share this exciting news!

## WHEN DECIDING WHERE TO PREPARE FOR YOUR LEGAL CAREER, DON’T FORGET EVERY LAW SCHOOL REQUIRES SUPERIOR LETTERS OF REFERENCE

Do you think attaining them will be easier when you meet one-on-one with your professors on an ongoing basis? Or, do you want to have to ask faculty who don’t recognize you as anything other than a face in the crowd?

**We promise you, the former is what you’ll get at Huron. Just ask Taylor Harris, an associate at the award-winning global law firm, Hogan Lovells LLP.**

In the summer before graduation, Taylor’s academic advisor pointed out he was just one credit shy of attaining a double major. Little did he know this advice would significantly improve his chances of getting into **The University of Cambridge’s law program.**

“My rapport with Huron’s faculty and staff was essential, and my advisor’s attentiveness to my development actually changed my life.”

Taylor admits working through the LLB program was the hardest thing he’s ever done, but Huron prepared him well by enhancing his ability to make effective arguments and flourish in demanding exam settings.

“Huron gave me competence academically and socially,” Taylor explains. “Our school teaches you how to coexist with people and, considering the global political and social climate we live in, that is just as important as knowing how to pass an English exam.”

*"I have been a Financial Aid Officer at Huron for close to 30 years, and I take great pride in being able to help our students. The Financial Aid Office is a confidential, non-judgemental place for students to be able to discuss their financial situations. The best part is, Huron is small enough a student only has to tell their story once, to one person, and I think that is essential. Plus, appointments aren't required!"*

# HURON STUDENTS LIVE **LARGE**

The quality of our residence options is further proof that remaining exclusive is in the best interests of our students. Instead of packing thousands of students into high-rise buildings, we have five residences — as many as most large universities — but with a much smaller population to each house.

Better still, ALL of our residence rooms are spacious single rooms — which is unheard of at those larger institutions.

When you live in our residences, you always have the opportunity to be involved in events specially designed **for you**.

You can also take advantage of our lounges. Whether you want to watch a movie, play Ping-Pong or match off with your friends via our video game consoles, our shared student spaces are the perfect places to extend the fun of living in residence.

Enjoy **FOOD FREEDOM** at Huron.

Our “All You Care to Eat” plan means you have full access to the Dining Hall, seven days a week, as many times a day as you need, for as much food as you want!

Huron’s Dining Hall is one of the best places to see a familiar face - or 20. From our dining staff, who will know you by name (and your favourite order) through to your professors and soon-to-be friends, this centrally-located campus hub is where you’ll spend lots of time - without spending all your savings on food.

## ALL YOU WANT & NOTHING YOU DON'T

If you have special dietary concerns, food allergies or sensitivities, our Director of Food Services will meet with you personally to come up with a plan to meet your needs - be they allergies, cultural restrictions, personal or ethical preferences - or anything in between.

*“For me, the All You Care to Eat model was great because it allowed me to eat whatever meals and snacks I thought were the best for me, not what I felt I could afford. Not having to worry about running out of money made it much easier to enjoy my experience in the cafeteria and take advantage of the wide variety of food offered there.”*

# OUR CITY HAS *heart*

**WHERE YOU CHOOSE TO GO TO UNIVERSITY IS INFLUENCED BY MORE THAN JUST WHAT'S AVAILABLE ON CAMPUS.**

London has a big city vibe — with the affordability and close-knit feel you won't find in Toronto. While we're right next door, it can be much easier to adjust to living in a student-focused city. All London's event and entertainment options are built specifically to accommodate our young people, so it's hard to get bored here - or feel lost like you might in a larger city.

Our city is home to more than 400,000 people, including over 50,000 university-aged students.

With one in five citizens being born outside of Canada, London is wonderfully diverse and welcoming. Community members appreciate the significant value our students contribute to our culture and economy, so they will be happy to have you visit them at their establishments — and work for their companies.

Rather than competing with a million people for the position of your dreams, you will get to take advantage of Huron's connections with London's top-rated employers to secure paid internships and prestigious careers.

Our location makes it easy to take day trips to tourist centres such as Toronto, Niagara Falls and Stratford. Throughout the year, Huron students have LOTS of chances to take guided trips to Canada's major attractions!

**You will be conveniently located to both the London International Airport and Toronto Pearson Airport, so you can easily book flights to and from home.**

# MAKE YOUR HOME IN THE FOREST CITY

LONDON IS PASSIONATE ABOUT BEING GREEN AND OUR CITY IS THE PERFECT PLACE FOR PEOPLE WHO LOVE THE OUTDOORS.

With more than four million trees, 40 gorgeous parks and 100 kilometres of hiking trails, London offers a year-round outdoor playground for the adventurous-at-heart.

**50%** MORE AFFORDABLE RENTAL OPTIONS THAN IN TORONTO

## LONDON ATTRACTIONS

- From neat gastro pubs to street performances, festivals and the city's best-loved bars, **Richmond Row** in downtown London is THE place to go. It's only a quick bus or cab ride from your home at Huron.
- Visit the **Covent Garden Market** for international foods and flavours, artisanal goods and delicious coffee. Once you're fuelled up, make the short walk over to Museum London or Labatt Park.
- London's **Old East** region is home to the Western Fair market, craft eateries and micro-breweries. Not to mention distinctive event venues, theatrical performances and high-energy activities.
- If you want to go shopping, check out **Masonville Place** or **White Oaks Mall**. At these major shopping centres, you'll find all the brands you love.
- **Wortley Village** is in the heart of Old South. Our students visit Wortley to eat in and explore one of Canada's coolest neighbourhoods. Known for being dog- and people-friendly, it's easily accessible by public transit and a great spot to meet friends for coffee or spectacular tasting experiences.
- **Budweiser Gardens** is our centrally located 10,000-seat entertainment centre where we welcome world-renowned artists and host exciting community events and concerts.

**NO ONE CAN PREDICT THE FUTURE, BUT OUR UNIVERSITY WILL PREPARE YOU FOR IT. WITH OUR PERSONALIZED APPROACH TO EDUCATION, PROFESSIONAL DEVELOPMENT RESOURCES AND PRIORITIZATION OF YOUR WELL-BEING, WE WILL EMPOWER YOU TO ANSWER THE CALL TO LEAD.**

From the moment I pulled up to Huron, I felt at home. The community aspect is so important, and the intimacy and support Huron is able to provide, within the larger Western campus, is unparalleled. Our size is just so conducive to fostering your sense of self – whether it be with other students or your professors. It’s easy to thrive here. I am such a huge advocate for our university because, every day, I am reminded why I chose to come here.
